On the Go Power in Automobiles

Campbell Hausfeld enables on-the-go consumers to power some of the most popular electronic equipment and appliances right from their automobile's dashboard with its new line of inverters.

Campbell Hausfeld inverters plug into an automobile's cigarette lighter and transform electrical current from DC to AC. The inverters feature one or more backlit 12-volt outlets for access to power. The inverters' safety features include low voltage shut-off if the automobile's battery power becomes low and thermal overload protection to prevent short circuiting and overheating.

"Inverters provide incredible convenience for businesspeople who rely on various electronic devices to stay connected and for families who like to keep the kids entertained in the backseat," said John Brown, Director of the Campbell Hausfeld Home and Car Care Solutions Group.

Inverter models include:

90-Watt Mini Inverter (model IB3001)

Compact enough to be stored in a glove department and features one 12-volt outlet to power small electronic devices such as laptop computers, portable gaming systems, cell phone chargers and more.

Suggested retail price is \$19.99.

-MORE-

Power Disc Inverter

200-Watt (model IB3003)

Features a portable design that can be tucked under a seat or placed in a storage compartment as well as two outlets to power multiple electronics at the same time, including laptop computers, portable gaming systems, cell phone chargers, DVD players, video game systems, TV/VCR combination units and more. If the automobile's battery power becomes low, an alarm will sound before the unit shuts off. Suggested retail price is \$29.99.

425 Watt (model IB3004)

Similar to the 200-watt model, the 425-watt inverter features two outlets that provide the additional power to operate larger electronics such as power tools, small air compressors and 27" televisions and more. Suggested retail price is \$39.99.

For purchasing information, consumers may go to www.chpower.com or call 1.888.CHPOWER (247-6937).

Founded in 1836 and headquartered in Harrison, Ohio, Campbell Hausfeld is a leading manufacturer and marketer of power tools, air compressors, paint sprayers, welders and pressure washers.
