Hardware Show Booth #30049

Attach and Assemble With Speed

Apartment dwellers and homeowners can speed simple do-it-yourself tasks such as assembling furniture and attaching hardware with the debut of Campbell Hausfeld's new 6-volt cordless screwdriver.

"Our new screwdriver is a perfect kitchen drawer tool for the basic maintenance projects all of us need to tackle from time to time," said John Brown, Director of the Campbell Hausfeld Home and Car Care Solutions Group. "Now we can just complete the projects faster!"

Compact and lightweight, the new 6-volt cordless screwdriver has a soft-grip handle that rotates to inline or pistol position to accommodate various space requirements and has an easy-to-reach forward and reverse switch. A built-in horizontal level improves accuracy.

The 6-volt cordless screwdriver includes two driver bits which are stored on the unit itself. Bits can be quickly changed without using a special tool.

The 6-volt cordless screwdriver is powered by 4AA batteries (included).

Suggested retail price for the 6-volt screwdriver is \$12.99. For purchasing information, consumers may go to www.chpower.com or call 1.888.CHPOWER (247-6937).

Founded in 1836 and headquartered in Harrison, Ohio, Campbell Hausfeld is a leading manufacturer and marketer of power tools, air compressors, paint sprayers, welders and pressure washers.
