

## New AT Power Tools Get a Grip on Exceptional Handling

Campbell Hausfeld, a leading manufacturer of air compressors and air tools, expands its professional tool offerings with the new AT Professional Series nine top-of-the-line pneumatics engineered with a Santoprene® elastomer grip to deliver superior control, added safety and improved comfort.

"The AT Professional Series provides professional users with the exceptional handling required by jobs in the industrial workplace, automotive garage and construction worksite," said Bryan Humpert, Marketing Manager of Tools and Accessories at Campbell Hausfeld.

The Santoprene grip is non-slip in wet environments and resistant to perspiration, water, oil and chemicals. The Santoprene also acts as a thermal insulator and lowers tool vibration and impact for reduced fatigue.

"In addition to the benefits of enhanced control and comfort, the AT Professional Series tools feature Campbell Hausfeld's Built to Last workmanship so customers can depend on their reliability and durability after thousands of uses," said Humpert.

The first nine AT Professional Series models include:

- **½" Impact Wrench (PL2502):**

Provides 450 foot-pounds of torque for the removal of even the most stubborn bolts and fasteners. The PL2502 has a powerful balanced twin hammer mechanism for maximum output, an integrated power regulator and forward/reverse mechanism for ease of control. Suggested retail price is \$119.99.

- **½" Impact Wrench (PL1502):**

Supplies 380 foot-pounds of torque for plenty of power to complete tough tasks. The pin clutch mechanism allows for fast removal and balanced operation. A built-in regulator adjusts speed and torque. Suggested retail price is \$69.99.

- **6" Dual Action Sander (PL1504):**

Designed for sanding wood, metal, fiberglass and auto body fillers, the PL1504 features dual-action sanding for swirl-free finishes and a built-in regulator that controls speed during delicate application. Suggested retail price is \$49.99.

- **3/8" Ratchet (PL1501):**

Produces 55 foot-pounds of torque to remove nuts and bolts. The forward/reverse dial is conveniently located in the front for quick directional changes. Suggested retail price is \$49.99.

- **2 5/8" Air Hammer (PL1534):**

The PL1534's cutting, chipping and scraping action is ideal for automotive exhaust removal, front-end work and masonry. Suggested retail price is \$29.99.

- **Full Size Die Grinder (PL2521):**

At 25,000 RPMs, the PL2521 provides twice the power of a standard die grinder, making it ideal for high-speed grinding, smoothing, polishing and heavy deburring. Suggested retail price is \$49.99.

- **Cut-Off Tool (PL2535):**

Provides 25,000 RPMs for the speed and power to quickly cut through one-inch diameter steel rods, fiberglass and copper/aluminum tubing as well as up to one-half inch of iron. Suggested retail price is \$49.99.

- **3/8" Rev Drill (PL1545):**

Used to drill, hone, saw and wire brush most metal or wood surfaces. Suggested retail price is \$49.99.

- **3/8" Keyless Drill (PL2545):**

Has a keyless Jacobs® chuck for reliable bit replacement and long-lasting durability. Suggested retail price is \$79.99.

The AT Professional Series tools are featured in Campbell Hausfeld's "Zero Breakdowns" ad campaign, which launched May 2002 in leading consumer and trade magazines.

Backed by Campbell Hausfeld's three-year warranty, the AT Professional Series tools are available at Tractor Supply Company, Wal-Mart and Home Depot. The Series will be offered at other retailers nationwide later this year. Customers can obtain purchasing information by calling 1-888-CHPOWER (1-888-247-6937) or by visiting [www.chpower.com](http://www.chpower.com).

Founded in 1836 and headquartered in Harrison, Ohio, Campbell Hausfeld is a leading manufacturer and marketer of air compressors, air tools and accessories, paint sprayers, welders and pressure washers.
