

## **Campbell Hausfeld Treads New Territory with Debut of Tire Care and Repair Products at AAPEX**

Campbell Hausfeld, a leading manufacturer of pneumatic tools, air compressors and inflators, previews a new line of tire care and repair products and accessories at the 2002 Automotive Aftermarket Products Expo (AAPEX), November 5-8 in Las Vegas.

A natural extension of Campbell Hausfeld's strong brand identity and expertise in the automotive retail channel, the new line features more than 80 products including tire gauges; tubeless repair kits; valves, cores and caps; tire/tube repair kits; inflation accessories and adhesives.

"Based on our customer feedback, we realize those who depend on our inflators and pneumatic tools for routine car maintenance are the same people most likely to tackle do-it-yourself tire repair," said Aric Durr, Product Manager of Tools and Accessories at Campbell Hausfeld. "By expanding our automotive product line, we can better meet our customers needs while providing our retailers with a complete Campbell Hausfeld maintenance and repair program that can be easily cross merchandised with our other products."

Suggested retail prices for the tire care and repair products range from \$2 to \$11. The line is currently being test marketed at select Wal-Mart stores nationwide and is available at Tractor Supply Company, Blaines and CSK Auto, Inc. retailers.

Founded in 1836 and headquartered in Harrison, Ohio, Campbell Hausfeld is a leading manufacturer and marketer of air compressors, air tools and accessories, paint sprayers, welders and pressure washers.
