

Campbell Hausfeld Debuts 3/4 HP Airless Contractor Sprayer

Campbell Hausfeld will reveal its latest applicator offering for the contractor paint category, the 3/4 HP Airless Contractor Paint Sprayer (PS6317) at the Paint & Decorating Contractors of America annual convention, March 17-20, 2004 in booth # 507.

"Retailers continue to be challenged by serving the contractor market with powered paint sprayers. There is little range between the costly investment of a contractor-grade unit to the more affordable DIY sprayers that fall short on the power needed for contractor jobs," said Pam Melton, senior product manager for Campbell Hausfeld paint systems. "By expanding our line of contractor units, Campbell Hausfeld is working to fill the void by developing durable and powerful sprayers at a competitive price point."

Designed specifically for contractor needs, the PS6317 delivers .32 gallons per minute (GPM) at 2,000 pounds per square inch (PSI). Featuring Campbell Hausfeld's diaphragm technology, the unit provides contractors with powerful, constant pressure for more consistent coverage in fewer passes.

Ideal for new construction and remodeling or maintenance work, the PS6317 is able to spray the following coatings:

- Stains and varnishes
- Aluminum paints
- Wall primers
- Oil-based paints
- Latex paints
- Mildew-resistant paints
- Utility enamels

The unit also features an enclosed fan-cooled motor to increase user safety; a rugged, low-profile stand that provides pump protection and cord/hose management; and a unique power flush cleaning system with direct hose hook-up to reduce cleaning time.

The unit includes a contractor-approved ergonomic gun with .017 maximum tip size and low-kink swivel and can accommodate 150 feet maximum of hose.

Suggested retail is \$549. Retailers interested in stocking the PS6317 should contact Mike Sansone, national sales manager, at 1-615-773-6801. Customers can obtain purchasing information by calling 1-888-CHPOWER (1-888-247-6937) or visiting www.chpower.com.

Founded in 1836 and headquartered in Harrison, Ohio, Campbell Hausfeld is a leading manufacturer and marketer of air compressors, air tools and accessories, paint sprayers, welders and pressure washers. For more information on Campbell Hausfeld products, visit www.chpower.com.
